COMPANY OVERVIEW

Established in 2016, 2Spatial is a dynamic and results driven Engineering Surveying company.

Our team is dedicated to achieving high level client outcomes with expertise, technology, and innovation.

Our performance driven approach, delivers our clients the service they require, with professionalism and value for money.

2Spatial services all mainland states of Australia on local and remote projects.

DYNAMIC & RESULTS DRIVEN
Focused on delivering measurable results that matter.

EXPERT TEAM
Skilled, experienced and passionate professionals committed to excellence.

TECHNOLOGY & INNOVATION
Utilising advanced technology to deliver smarter solutions.

VALUE & INTEGRITY
Providing professional services with integrity, transparency and value for money.

CORE COMPETENCIES

WHAT MAKES US DIFFERENT?

INNOVATION

We utilise the latest technology to service all projects, large or small. We continuously develop innovative solutions to add value to our clients' needs by starting with the end result from of mind.

FLEXIBILITY

We have the resources to proactively respond to the varying scope of projects. Our team comprises adaptable, highly skilled and qualified professionals.

VALUE

We provide a complete tailored solution from conception to completion to streamline your project and save time, money and risk.

HEALTH, SAFETY AND THE ENVIRONMENT

The Work Health and Safety Policy of '2 Spatial Pty Ltd' endeavors to protect the health and safety of its employees, customers and others, who may be affected by our business activities. Our primary concern is the health and safety of all our employees and others.

.....

2Spatial are very proud to report a zero LTI (Lost Time Injury) to date.

2Spatial.

EQUIPMENT CURRENTLY IN OPERATION

We have added the latest in drone technology to our fleet, providing clients the ability to measure, analyse and photograph their projects. This enables clients to discover potential site issues, build a visual record of construction record progress and to track volumes and enhance productivity.

Our latest addition - a cutting-edge mobile laser scanner! This advanced technology redefines efficiency and precision, taking our capabilities to the next level.

What Can It Do?

Capture precise building data for seamless modelling, transform facilities into detailed digital twins, accurate underground mapping made easy, revolutionizing environmental assessments, preserve history with detailed digital replicas, and no task too big or too complex!

2Spatial utilizes Robotic Total Station (RTS), Global Navigation Satellite System (GNSS) and digital levelling survey equipment to perform cadastral surveys in accordance with the approved guidelines and regulations in each State of Australia.

OUR PROJECTS

- John Holland – Beveridge Intermodal Freight Terminal
- Fulton Hogan – Ferris and Hopkins Road
- Western Programme Alliance – Mt Derrimut Road
- Djilang Alliance – Waurin Ponds Stage 2
- BMD Constructions – Western Treatment Plant
- WPA – Cherry Street Werribee Level Crossing Removal (McConnell Dowell)
- Bell Street to Moreland Road Sky Rail, Occupation Works (John Holland)
- Western Roads Upgrade OSARS Derrimut Road (WBHO)
- Epping Development Cooper Street and O'Hearn's Road (BMD)
- Ison Road Bridge (Lendlease Communities / Bridgecon)
- Monash Freeway – Various Structures and Pavement Survey (Fulton Hogan)
- Webdock – Patrick Autocare (Georgiou)
- William Street Tram Works (Fulton Hogan)
- Toorak Rd Tram Works (Fulton Hogan)
- Boundary Road (BMD) Industrial Development
- Western Roads Upgrade Pavement Remediation – Elite Roads / Ventia
- WPA - Mt Derrimut Road level Crossing Removal (McConnell Dowell)
- Western Treatment Plant (BMD / Melbourne Water)
- Hall Road West MRPV (BMD)
- Waurin Ponds St 2 - Djilang Alliance (Downer / MCD)
- Narre Warren Road North MRPV – Symal

MAJOR INFRASTRUCTURE

Transport, rail, road and industrial

PRECISION SURVEYING

Accurate data for better outcomes

ADVANCED TECHNOLOGY

Drones, laser scanning and 3D modelling

SHARED SUCCESS

Collaborative partnerships delivering results

SAFETY & QUALITY

Committed to safety, quality and compliance

OUR WORKS

HOPE ISLAND STATION UPGRADE, QUEENSLAND

DELIVERING HIGH-END ENGINEERING SURVEYING SERVICES WITH PRECISION

Using Leica's state-of-the-art survey equipment and 12d Model software, we're providing our clients with the most accurate and actionable survey data for every stage of this critical infrastructure project.

With our advanced tools and technology, we're able to support construction and design teams through precise measurements, seamless data integration, and efficient workflows. Our team is committed to achieving quality results that elevate the standard for surveying infrastructure projects.

PRECISION & PROGRESS

Combining Leica hardware and 12d software to deliver precise measurements and robust data insights.

COMMUNITY IMPACT

Supporting the growth of safer, accessible transit for the Gold Coast.

MOVING FORWARD TOGETHER

Proud to contribute to Queensland's infrastructure landscape with solutions that move us forward.

OUR WORKS

CONTROL NETWORK TRAVERSE & ADJUSTMENT

A recent control network traverse and adjustment on a new project 2Survey Pty Ltd achieved millimetre-level accuracy.

At 2Spatial Pty Ltd, precision is at the core of everything we do. Leveraging the powerful features of 12d Model, our team applied cutting-edge tools for network adjustment and data analysis, ensuring the highest standards in surveying accuracy. From initial setup to final adjustments, we utilised 12d's robust functionalities for control point refinement and data integrity, setting a strong foundation for the project.

MILLIMETRE ACCURACY

Delivering precise control with millimetre-level accuracy.

ADVANCED TOOLS

Utilising 12d Model's powerful network adjustment capabilities.

DATA INTEGRITY

Ensuring accurate data analysis for reliable project outcomes.

FOUNDATION FOR SUCCESS

Building a strong base for seamless design and construction.

OUR WORKS

SOUTH GEELONG TO WAURN PONDS DUPLICATION PROJECT

ENHANCING INFRASTRUCTURE WITH ENGINEERING SURVEYING.

2Spatial Pty Ltd are excited to share insights from this key project improving Victoria's transportation. We're duplicating rail lines to meet growing passenger and freight demands.

PRECISION SURVEYING

Accurate data capture for complex infrastructure environments.

INFRASTRUCTURE SUPPORT

Delivering reliable surveying solutions that support safe, efficient construction.

CLIENT PARTNERSHIPS

Collaborating closely with clients to achieve project success and quality outcomes.

COMMITMENT TO QUALITY

Upholding the highest standards in accuracy, safety and service.
